

## Mission

The Mission of Your Wellness Consultant is to educate and train my clients in methods to develop and maintain a healthy and rewarding quality of life. No corporation, organization, group or individual can truly realize its full strength and productivity unless it unlocks the untapped potential that emerges from living a wellness lifestyle. Utilizing ancient wisdom and modern science, We endeavor to give every client keys to accessing the powers that emanate from a balanced relationship between mind, body, and spirit, and from an understanding of the Principles of Inter-relatedness, Inter-connectedness, and Inter-dependence.

Our Goal is to provoke and facilitate an enhanced vision in each of our clients, enabling them to achieve their unique form of self-actualization.

## QSP: The Quantum Sociology Paradigm

The pairing of the words **Quantum** and **Sociology** is not original. But, QSP is innovative, transformative, and powerful. QSP travels a very different path than that followed by those who first considered this linkage. Quantum is from the Latin root, '*quantum*' meaning 'how much'. In addition to meaning quantity, amount, portion, and part, it refers to '*one of the very small increments or parcels into which many forms of energy are subdivided*' (particularly in the fields of Quantum Mechanics and Quantum Physics). Within academia, Sociology is generally defined as, '*the study of*

*group behavior*'. The pairing of the terms Quantum and Sociology arose in the 20th Century in an effort to understand and articulate the behavior of the quanta referred to in the physical sciences. This has been a useful endeavor resulting in conclusive evidence that these quanta, that are the essence of the universe(s) and the foundation stones of all manifestations within creation, are themselves conscious and intelligent. Like biological creatures they are able to receive, organize, reorganize, and spread semantic information (information that conveys meaning).

## QSP: The Nature of Our World

QSP is a seamless integration of the Western Cornucopia Worldview and the Indigenous Ecological Worldview. It is a seamless, flexible, and empowering integration and application of science (both the physical and the social & behavioral), philosophy, metaphysics, and ancient spiritual wisdom in understanding, predicting, influencing, and shaping

human attitudes, behaviors, choices, and fate (the consequence of our choices). Where other treatments of the Quantum-Sociology pairing use sociological concepts and theories to explain and predict the behavior of quanta; QSP accepts as fact that the fundamental units of creation are conscious and intelligent, which implies that all manifestations of the quanta also have some level of consciousness and intelligence.

## QSP: Key Concepts

This is the traditional belief of the indigenous peoples of the world and it is a fundamental aspect of the theoretical and applied technology of QSP: The Quantum Sociology Paradigm. In QSP we call this quanta, this 'black material of the darkness from which all things come, by many names; one being the *Age* (ah-shay). QSP explains and influences human behavior through the strategic application of three

fundamental QSP concepts, **Interrelatedness** (common essence), **Interconnectedness** (common purpose), and **Interdependence** (mutual need). It is through the full understanding and intuitive application of these concepts that we are able *To Transform Information into Insight*. It is QSP and the sentient forces behind it that makes SEI the wizard of Applied Social & Behavioral Sciences, **Your Wellness Consultant!**

## QSP: The Corporate Environment

There are dynamic and powerful forces influencing what happens in your company. Of course there are market trends, government regulations, shareholders, conflicting policies and redundancy, global competition, and technological sabotage, to name a few. There are also the quantum forces generated within your organization. The

energetic consequences of the kind of attitudes you and your employees bring and maintain on the job. We often act as though we are disconnected, although most of us recognize that we are. The old adage "One rotten apple can spoil the whole bunch!" is a reflection of this understanding. **Stress in your company matters, and how you perceive and deal with it also matters.** SEI can help!
